

National Council on International Trade Development
CELEBRATING FORTY YEARS | 1967-2007

The National Council on International Trade Development (NCITD) was founded in 1967 as a nonprofit organization dedicated to providing expertise to industry and to government on a wide range of international trade topics. NCITD focuses on export and import regulations, as well as emerging issues in cross-border business. Our current emphasis on export controls and trade sanctions extends to U.S. as well as overseas regulations and procedures.

NCITD's diverse membership includes international trade specialists from large, mid-sized and small manufacturers, freight forwarders and brokers, financial institutions, law firms, trade groups and consultants.

Our monthly meetings in Washington, DC with government officials and other international trade professionals provide regulatory updates as well as an informal setting for networking and concrete discussion of rule-making and compliance issues. Please join us in dialogues with the agencies responsible for developing, implementing and enforcing the rules and regulations for international trade.
